

SOL40-WD

Biodegradable Equipment Wash

SOL40-WD is a non-aqueous blend of biodegradable, non-fuming, ultra-low odor cleaning agents designed to wash the toughest hydrocarbon encrusted dirt there is off any type of metal or plastic.

Features and Benefits

- ✓ High efficacy for hydrocarbon coated material
- ✓ Resists spackling of asphaltenes on surfaces
- ✓ Contains specialty surfactants designed to leave surfaces water wet to allow rinsing with straight water
- ✓ Ultra-low pour point of -20°C

Applications

- ✓ SOL40-WD can be used to clean all types of machines, parts, storage tanks, or rail cars. Virtually anything that is coated in hydrocarbons can be effectively cleaned
- ✓ Used in concentrated or diluted form (typically, a 10% dilution)

Testing was performed to illustrate the exceptional cleaning abilities of SOL40-WD.

- ✓ Coupon was brushed with bitumen
- ✓ Immersed in cleaner for 5 minutes
- ✓ Raised out of cleaner, dried for 15 min
- ✓ Water rinse
