**WT10-OSW                      ODOR, SEWER AND WASTEWATER TREATMENT**

WT10-OSW is a powerful agent to reduce odors and the ability of bacteria to produce H<sub>2</sub>S producing anerobic bacteria in RV Holding tanks and other wastewater sources. The product is cost effective, environmentally friendly and highly efficient.

WT10-OSW does not contain Formaldehyde.

Features and Benefits

- ✓ Biodegradable, fast acting and has virtually no odor
- ✓ No flashpoint and exhibits a -8°C freeze point
- ✓ WT10-OSW kills the anerobic bacteria that is the source of H<sub>2</sub>S
- ✓ Reduces odor resulting from H<sub>2</sub>S and mercaptans
- ✓ Does not contain methanol, chlorides, dyes or perfumes
- ✓ Non-toxic to aquatic life (96 hour LC50 = 2 g/L)

Applications

- ✓ WT10-OSW can be used in out-houses, RV Holding Tanks and wastewater ponds
- ✓ Add WT10-OSW directly to the holding tanks or flush into system
- ✓ WT10-OSW can be added to make up water for producing steam and the produced steam will effectively eliminate odors and H<sub>2</sub>S from tank atmospheres or other atmospheres to which the steam is introduced
- ✓ Use in black or gray water holding tanks only
- ✓ 1<sup>st</sup> time use 250ml – 500ml per 200L tank
- ✓ Repeat applications use 250ml – 500ml per 200L tank, or as required for desired results
